

## Don't have time to sit in class all day?

### The Training module offers tremendous flexibility to take classes on-line, at your computer, from anywhere

- Use the Training area for a variety of content areas such as ISO 9001, ISO 14001, Business Continuity Planning, Lean Manufacturing, Management Systems, and/or other ISO and Quality Standards
- Web-based courses can be taken by **each of your staff as many times as they like**
- Includes courses for **Management, Employees and Internal Auditors**
- Web-based courses offer **flexibility** to take them from work, home, the road, etc.
- **Courses are easy to take**, click the Next button to navigate screen by screen through the material
- Courses are **organized into modules**, so learners can take them all at once or on their own schedule
- **Send your staff Notices** when they need to take a particular course
- The Training system **automatically records** who has taken and completed each course

equationASP® can be used for:

- **ISO 9001** and other quality standards such as AS9100, ISO 17025, ISO 13485, and TS 16949
- **ISO 14001** for environmental management
- **Business Continuity Planning (BCP)**
- **Lean Manufacturing**
- **Management Systems**
- Other **ISO Standards** such as ISO 18001, ISO 22000, and ISO 28000

equationASP® modules include:

- **Document Control**
- **Project Management**
- **Corrective Action**
- **Data Collection**
